

Fall into Fall at Chain O' Lakes

S.P.

Plenty of fall activities are planned at Chain O' Lakes S.P. this weekend. On Saturday we begin the odyssey with a fall foliage hike around Sand Lake. That afternoon, at 2pm we'll take time at the Nature Center to learn how to preserve fall leaves and make some nature crafts.

Sunday, put on your hiking shoes and join us for Dam Builders, where we'll watch for signs of beavers getting ready for winter and learn about their lifestyles and adaptations. End the weekend with a 2:00pm "paint By Nature" craft time at the Nature Center. Learn how to capture the essence of fall using objects found in nature.
